EDUCATION

University of California, San Diego — 3.7 GPA
Pasadena City College, Pasadena — 3.6 GPA

B.S. Computer Science
A.A Mathematics

Graduating on DEC 2017
Graduated on May 2015

Related Courses

Core : Data Structure, Software Engineering, Computer Organization, Computer Architecture, Data Structures, Algorithms, Operating System, Programming Language, Compiler Construction
AI/ML : Modelling & Data Analytics, A.I Statistical Approach, A.I Reinforcement Learning, Computer Vision, Data Mining, Neural Network
Web : Interaction Design, Advanced HCI Programming, Back-end Web Programming & Database

EXPERIENCE

Data Science Intern San Diego Supercomputer Center July - Current, 2017

- Preprocessed and Analyzed real-time Geolocation data using python GDAL and pandas libraries.
- Implemented various feature extraction strategies to obtain important features from multiple Geolocation data such as designing kernel for convolution, parameter tuning and ensemble method.
- Designed and trained pipelines multiple machine learning model to be used in a real time web application
- Deployed machine learning solution to main wildfire analysis site using with on Flask framework REST API

Intern Cloudlanes July - Sep, 2017

- Tested and deployed Cloudlanes Backup Accelerator server to VMs on Azure and Google Cloud Platform
- Researched and configured a backup mechanism using Veeam on Windows server to backup data from on-prem to Azure blob storage through Cloudlane's backup accelerator server
- Collaborated with fellow interns in researching storage and cloud infrastructure of several UCSD department to gain on different Cloud technologies and application of backup accelerator technology

Computer Science Tutor University of California, San Diego Sep - Dec, 2016

Course: CSE 103 - Probability and Statistics Class size of 200+, Section size of 20+

- Assist students in learning foundational knowledge in statistics, such as probabilities and inferential statistics
- Facilitated additional instructional discussion hours for students alongside TA, helping students to have deeper understanding of materials

Computer Science Tutor Pasadena City College Feb 2014 - May 2015

Courses: C++ and Object Oriented Programming, and Data Structures Class size of 30+

- Assist students to learn foundational knowledge in programming in C++ and various data structures.
- Planned and facilitated a supplemental instruction program for CS students with CS faculty instructors

PROJECTS

Pintura - GeoAPI Web App *Nodejs, Express, Leaflet* 2017

- Developed a mobile app that uses Leaflet.js GeoAPI to allow map based photo sharing application.
- Implemented client and server side functionality for the main functionality of the map page.
- Implemented persistent client session and user account of the application.

Mindlee - Mindfulness Web App *Nodejs, Express* 2017

- Developed a mobile app that manages user stress level and notify user of their desired stress level.
- Designed a responsive front-end interface with w3 and Express API.

CoupleTones - Android *GeoLocation* Social App *Java, Android, Firebase* 2016

- Developed an app that tracks user's location and notifies users of their favorite location and proximity to the location
- Implemented the backend with Firebase and Google Messaging API to store locations and networking features

Smart Chatbot - AI, NLP *C++, Qt, SQLite* 2015

- Designed and implemented natural language processing toolkits such as lexical analysis, and parsing libraries in C++
- Implemented database to support the application with Qt framework and SQLite
- Designed a command line chat bot that can answer questions based on given facts during the conversation

Puzzle Solver - AI, Algorithm *C++, Qt, OpenGL* 2015

- a N-dimensional sliding puzzle solver that uses A* graph search algorithm with customized heuristic method to find the most optimal path to solve board configurations and animate the resulting path.

SKILLS

Proficient:

Python •
C++ •

Familiar:

Java •
C •
JavaScript •
Bash •
OCaml •
MATLAB •
PHP •

Tools:

Git •
Vim •
Linux •
SQLite •
PostgreSQL •
Android •
Ant •
Firebase •
Azure •
CircleCI •

Python Library:

Pandas •
Jupyter •
sklearn •

Web Framework

Node.js + Express,
Flask, PHP,
Leaflet

AWARDS

Provost Honor - 2016

Dean's Honor
(2013-2015)

Honors in
Mathematics (2015)
awarded by Pasadena
City College

Basic Certification
(2015) awarded by
National Tutoring
Association
